0.2 ml 8-Strip PCR Tubes, White with Attached Flat (Xtra-Clear) Cap Strip

Product Highlights

- Manufactured from medical grade polypropylene
- Individually attached caps eliminates cross-contamination from cap mix-up
- PCR inhibitor free
- Suitable for Realtime PCR (quantitative PCR = qPCR)
- Certified RNase, Dnase, DNA and Pyrogen-free
- Ultra thin walls ensure efficient thermal transfer and maximum yield
- Supplied in resealable bags

Product Applications

Standard PCR (Endpoint PCR)

General Data

Art. No.	I1409-2700
Sterile	No
Autoclavable	Yes
Volume	0.2 ml
Pack Size	125 Tube Strips with Caps (1 Pack × 125 Tube Strips with Caps)
No. of tubes	8
Cap style	Attached flat cap strip (Xtra-Clear)
Material	Polypropylene
DNA free	Yes
DNase free	Yes
Free of endotoxins	Yes
Human DNA free	Yes
PCR inhibitor free	Yes
Pyrogen free	Yes
RNase free	Yes
Color	White
Suitable for PCR	yes
Suitable for Real-Time PCR (qPCR)	yes

More informations about 0.2 ml 8-Strip PCR Tubes, White with Attached Flat (Xtra-Clear) Cap Strip

Help eliminate cross-contamination with PCR Strips with Attached Cap Strip
Discover convenience and efficiency with Starlab's PCR strips with attached cap strip, designed for mid-throughput settings. These PCR strips ensure all tubes are equally protected, supporting consistent results across samples, as well as simplifying handling to increase workflow efficiency. The attached 'crocodile' style strip caps eliminate the possibility of cross-contamination from cap mix ups.

The opaque white tubes maximise reflectance for enhanced signal, and the ultra-thin, uniform walls ensure optimal heat transfer. Combined with the Xtra-Clear cap strip for optimal signal transmission and detection, these strips are ideal for qPCR.

0.2ml tubes are suitable for use in the majority of cyclers. Certified free of RNase, DNase, DNA and PCR inhibitors, and tested Pyrogen free.
