

#### 96-Well PCR Plate, Non-Skirted (Cuttable), Natural (Case Size)

#### **Product Highlights**

- Non Skirted plates for a universal fit, suitable for most thermal cyclers
- Highly visible black printed matrix
- More pliable and can easily be cut into any desired configuration
- Certified Rnase, Dnase, DNA & Pyrogen-free
- PCR Inhibitor free
- Ultra-thin, uniform wells ensure optimal heat transfer and high reaction efficiency
- Supplied in resealable bags

## **Product Applications**

**PCR**

# More informations about 96-Well PCR Plate, Non-Skirted (Cuttable), Natural (Case Size)

Standard height, non-skirted PCR plate. This plate is more pliable and can easily be cut into any desired configuration, with normal scissors. Starlab Non-Skirted PCR-Plates have no skirt at the plate edges. They have a universal fit for all common thermocyclers. The high elasticity of the plates ensures a proper fit in the heating block. Available as natural or white plates. Opaque plates for qPCR show low auto-fluoresence with chemiluminescence (white) and also increase signal yield.
