

Non-Skirted PCR Plate (Flat Surface)

Product Highlights

- Non Skirted plates for a universal fit, suitable for most thermal cyclers
- Highly visible black printed matrix
- Certified Rnase, Dnase, DNA & Pyrogen-free
- PCR Inhibitor free
- Ultra-thin, uniform wells ensure optimal heat transfer and high reaction efficiency
- Supplied in resealable bags

Product Applications

PCR

More informations about Non-Skirted PCR Plate (Flat Surface)

Starlab Non-Skirted PCR-Plates have no skirt at the plate edges. They have a universal fit for all common thermocyclers. The high elasticity of the plates ensures a proper fit in the heating block. Available as natural or white plates. Opaque plates for qPCR show low auto-fluoresence with chemiluminescence (white) and also increase signal yield.
