# More informations about Silicone Sealing Mat for 384-Well Plates

Reusable, ultra-flexible silicone sealing mat for 384-Well PCR Plates. Designed to be especially suitable for thermal cyclers with pressure-fit lids. The non-reactive rubber will withstand repeated autoclaving, extreme temperatures and aggressive chemicals.

For best results we recommend using only the dedicated mat for your plate. The recommended sealting plate is listed in the ordering table under each plate.

NOTE: Sealing mats are not suitable for Realtime-PCR (qPCR) applications.
