

## CytoOne® Dishes

### Product Highlights

- Sturdy, flat bases resist bowing and warping
- Optical clarity provides distortion-free microscopy
- Stacking rings with vented design for thermal equalisation
- Vented lids improve gas exchange
- Gamma sterilised (SAL  $10^{-5}$ ) and certified RNase, DNase, DNA and pyrogen free
- All CytoOne® dishes have untreated lids to minimise condensation
- Easy to open sleeves in convenient, small pack sizes

## Product Applications

Expansion and culture of adherent and suspension cells  
Performance of cell-based assays and microscopic analysis

## More informations about CytoOne® Dishes

### Secure handling

Available with tissue culture treatment for optimum cell attachment and growth or non-treated for suspension cultures. Bevelled outer edges on the 35 mm and 60 mm dish bases make these small dishes easier to handle without accidentally displacing the lids, even when stacking. The lids of the 150 mm dishes have four ergonomically placed grip tags for secure handling with less strain.

- › Stacking rings with vented design for thermal equalisation
- › Vented lids improve gas exchange
- › All CytoOne® dishes have untreated lids to minimise condensation
- › Easy to open sleeves in convenient, small pack sizes
