

200 µl TipOne® Tip, Yellow

Product Highlights

- Universal fit. One tip fits all! The tip collar is engineered to fit all popular pipettes.
- Highly polished moulds for an extremely smooth surface to reduce sample retention
- Certified RNase, DNase, DNA and Pyrogen free.

Product Applications

Pipetting liquids
Dispensing liquids
Mixing liquids
Filling plates and reaction vessels
Phase extraction and removal of supernatants

More informations about 200 µl TipOne® Tip, Yellow

Improved by you - New System Components Overview

The perfect rack

- › Simple! The system comprises only two racks (one small, one large) for less complexity
- › Small rack for use with tip volumes 10 µl to 300 µl; large rack for use with tip volumes 1000 µl and 1250µl XL
- › Quick and easy identification of tips by colour-coded wafers with laser printed information and transparent lid
- › Stackable
- › Reusable
- › Autoclavable

The clever refill

- › The new refill is divided into two separate, individually-wrapped stacks of five wafers
- › Completely sealed, the tips are safe from contamination by the tight fitting top shell and unique spacers
- › Economical, space-saving design
- › Autoclavable when racked

The self-standing bag

- › New, self-standing bag for easy and convenient access and storage
- › Tamper-proof, easy-open perforation strip
- › Resealable zip-lock for contamination-free storage
- › Recyclable polyethylene bag
- › Economical – ideal for teaching labs or non-critical work

The compact stack rack

- › Next generation design with wide base for great stability
- › Transparent lid covers the tips when not in use
- › 960 tips for high throughput use, ideal for multichannel users
- › The complete stack rack is autoclavable and recyclable

The unique filter refill

- › A brand new, economical and ecofriendly TipOne® filter tip refill system
- › Fast, easy and safe: The filter tips are refilled with the top and bottom shell intact, thus providing a fast and completely protected refill system that will not compromise sterility
- › Using sterile filter refills to reload racks directly during periods of long use in hoods and PCR-workstations saves valuable space
- › Not only does the refill system gene - rate less waste, the bottom shells are nestable so your waste takes up less storage space too
