

## 200 µl Bevelled TipOne® Tip, Yellow

### Product Highlights

- Universal fit. One tip fits all! The tip collar is engineered to fit all popular pipettes.
- Highly polished moulds for an extremely smooth surface to reduce sample retention
- Highest quality product. Tips manufactured from pure, virgin polypropylene to ensure the highest quality product.
- Certified RNase, DNase, DNA and Pyrogen free.

### Product Applications

Pipetting liquids  
Dispensing liquids  
Mixing liquids  
Filling plates and reaction vessels  
Phase extraction and removal of supernatants

## General Data

|              |                |
|--------------|----------------|
| Art. No.     | See variations |
| Autoclavable | Yes            |
| Filter tip   | Non-filter     |
| Volume range | 1.0 - 200 µl   |
| Volume       | 200 µl         |
| Tip Type     | bevelled       |
| Material     | Polypropylene  |
| Graduations  | No             |
| Color        | Yellow         |

## More informations about 200 µl Bevelled TipOne® Tip, Yellow

### Improved by you - New System Components Overview

#### The perfect rack

- › Simple! The system comprises only two racks (one small, one large) for less complexity
- › Small rack for use with tip volumes 10 µl to 300 µl; large rack for use with tip volumes 1000 µl and 1250µl XL
- › Quick and easy identification of tips by colour-coded wafers with laser printed information and transparent lid
- › Stackable
- › Reusable
- › Autoclavable

#### The clever refill

- › The new refill is divided into two separate, individually-wrapped stacks of five wafers
- › Completely sealed, the tips are safe from contamination by the tight fitting top shell and unique spacers
- › Economical, space-saving design
- › Autoclavable when racked

#### The self-standing bag

- › New, self-standing bag for easy and convenient access and storage
- › Tamper-proof, easy-open perforation strip
- › Resealable zip-lock for contamination-free storage
- › Recyclable polyethylene bag
- › Economical – ideal for teaching labs or non-critical work

#### The compact stack rack

- › Next generation design with wide base for great stability
- › Transparent lid covers the tips when not in use
- › 960 tips for high throughput use, ideal for multichannel users
- › The complete stack rack is autoclavable and recyclable

#### The unique filter refill

- › A brand new, economical and ecofriendly TipOne® filter tip refill system
- › Fast, easy and safe: The filter tips are refilled with the top and bottom shell intact, thus providing a fast and completely protected refill system that will not compromise sterility
- › Using sterile filter refills to reload racks directly during periods of long use in hoods and PCR-workstations saves valuable space
- › Not only does the refill system gene - rate less waste, the bottom shells are nestable so your waste takes up less storage space too
