More informations about Rotor-Gene® Style Discs

The Rotor-Gene® Style Discs are specially made to be used with the Qiagen® Rotor-Gene™ Q Real-Time Rotary Analyzer. Two models are available: a 72-well format with 100 µl tubes (recommended reaction volume: 20 - 25 µl) and a 100-well format with 25 µl tubes (recommended reaction volume: 15 - 20 µl). The discs are a one-piece "plate" equivalent, having vertically oriented wells compatible with automated reaction setup using a robotic liquid handling system.
