Polystyrene Microplates

Product Highlights

- Crystal-clear polystyrene microplates
- Flat, Round and V-Shape Bottoms available
- Sterile options individually wrapped
- Convenient pack size
- Lids available separately

Product Applications

Sample preparation
Homogenous standard assays
Extensive screening assays
ELISA

More informations about Polystyrene Microplates

Ultra clear polystyrene microplates

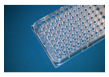

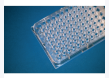

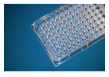

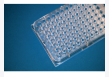

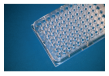

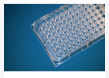

96-well microplates made from crystal clear polystyrene (PS). The plates are available in a choice of three different well bottoms: flat (suitable for optical reading eg. non-UV spectrophotometers, and ELISA applications when pre-treated plates are not required), plus round and v-shaped (suitable when total sample recovery is required).

Choose from aseptically produced plates in convenient mini-packs or individually-wrapped, sterile (irradiated) plates. Lids available separately.
