

8-Strip 'Non-Flex' PCR Tubes with Individual Attached Caps

Product Highlights

- Manufactured from medical grade polypropylene
- 'Non-flex' PCR Strips for easier handling
- Xtra-Clear caps for qPCR
- Certified RNase, Dnase, DNA & Pyrogen-free
- PCR Inhibitor free
- Ultra thin walls ensure efficient thermal transfer and maximum yield
- Supplied in resealable bags

More informations about 8-Strip 'Non-Flex' PCR Tubes with Individual Attached Caps

Starlab non-flex tubes have a robust, triple link between each tube making them less flexible and easier to handle. The individually attached caps eliminates possible cross contamination. The caps are set an angle which allows the tubes to be nested together in racks without the lids interfering with one another.
