

## 8-Strip 'Non-Flex' PCR Tubes with Individual Attached Caps

### Product Highlights

- Manufactured from medical grade polypropylene
- 'Non-flex' PCR Strips for easier handling
- Xtra-Clear caps for qPCR
- Certified RNase, Dnase, DNA & Pyrogen-free
- PCR Inhibitor free
- Ultra thin walls ensure efficient thermal transfer and maximum yield
- Supplied in resealable bags

## Product Applications

Realtime PCR (quantitative PCR = qPCR)

## General Data

|                                   |   |
|-----------------------------------|---|
| Art. No.                          | I1402-3700-C  |
| Sterile                           | No  |
| Autoclavable                      | Yes   |
| Volume                            | 0.2 ml  |
| Pack Size                         | 120 Tube Strips with Caps (1 Bag × 120 Tube Strips with Caps) |
| Cap style                         | Individually attached flat caps (X-Clear)                     |
| Material                          | Polypropylene   |
| DNA free                          | Yes   |
| DNase free                        | Yes   |
| Free of endotoxins                | Yes   |
| Human DNA free                    | Yes   |
| PCR inhibitor free                | Yes   |
| Pyrogen free                      | Yes   |
| RNase free                        | Yes   |
| Color                             | Natural   |
| Profile                           | Standard height   |
| Suitable for PCR                  | yes   |
| Suitable for Real-Time PCR (qPCR) | yes   |

## More informations about 8-Strip 'Non-Flex' PCR Tubes with Individual Attached Caps

Starlab non-flex tubes have a robust, triple link between each tube making them less flexible and easier to handle. The individually attached caps eliminates possible cross contamination. The caps are set an angle which allows the tubes to be nested together in racks without the lids interfering with one another.
