More informations about Four Channel Timer / Clock

Timing is everything!

[Timer](#)/Clock with a large easy to read LED display. There are four channels on which cycles can be independently or simultaneously set. You can easily toggle between your pre-set channels and the clock in order to keep on top of your experiments, or to know when it's lunch!

Need a calibrated [timer](#)?

To receive a pre-calibrated [Timer](#): Calibration of [Timer](#) (C0003-0000) must be ordered at the same time as [Timer](#) (N9900-0001), on the same Purchase Order No. We will then know to calibrate the Timer prior to shipping, and send it with a Certificate of Calibration.
