More informations about Cryo Cooler / Transport Case

Small, polypropylene, case-style holder with ice-gel tube holder insert for 48 x 1.5/2.0 ml tubes. Protects cells and biologicals stored in -70 °C freezers.

NOTE: Must be frozen to -70 °C for a minimum of 24 hours before use. It can be frozen to -80 °C but extra care must be taken as plastics may become brittle at such extreme temperatures and result in damage, eg. the handle or the closure clasp snapping. Not autoclavable.
