More informations about 96-Well PCR Plate, Non-Skirted, Low Profile, White

Starlab Non-Skirted PCR-Plates have no skirt at the plate edges. They have a universal fit for all common thermocyclers. The high elasticity of the plates ensures a proper fit in the heating block. Available as natural or white plates. Opaque plates for qPCR show low auto-fluorescence with chemiluminescence (white) and also increase signal yield.
