More informations about 96-Well PCR Plate, Non-Skirted (Cutttable), Natural

This 96-well cuttable PCR plate provides greater freedom. The plate is more pliable than other plates so it can be easily cut to the desired size and, as a non-skirted plate, has a universal fit so it is compatible with the majority of cyclers and sequencers. The highly visible printed matrix and cut corner (A12) helps with plate orientation. The cuttable plate can be sealed with STARLAB's PCR Strip Caps, the silicone sealing mat, or any plate seal suitable for PCR.
