

## Rotor-Gene® Style Discs

### Product Highlights

- Supplied in resealable bags

## Product Applications

PCR

## General Data

|                                   |                     |
|-----------------------------------|---------------------|
| Art. No.                          | See variations      |
| Autoclavable                      | No                  |
| Material                          | Polypropylene       |
| DNA free                          | Yes                 |
| DNase free                        | Yes                 |
| Free of endotoxins                | Yes                 |
| PCR inhibitor free                | Yes                 |
| Pyrogen free                      | Yes                 |
| RNase free                        | Yes                 |
| Suitable for PCR                  | yes                 |
| Suitable for Real-Time PCR (qPCR) | yes                 |
| For use with (SL)                 | Qiagen® Rotor-Gene™ |

## More informations about Rotor-Gene® Style Discs

The Rotor-Gene® Style Discs are specially made to be used with the Qiagen® Rotor-Gene™ Q Real-Time Rotary Analyzer. Two models are available: a 72-well format with 100 µl tubes (recommended reaction volume: 20 - 25 µl) and a 100-well format with 25 µl tubes (recommended reaction volume: 15 - 20 µl). The discs are a one-piece "plate" equivalent, having vertically oriented wells compatible with automated reaction setup using a robotic liquid handling system.
