

200 µl UltraPoint® graduated TipOne® Filter, Natural (sterile)

Product Highlights

- Graduated at 50 µl, 100 µl and 200 µl
- UltraPoint® thin-wall orifice helps prevent sample hang up
- Highly effective HDPE filter that contains no additive to interfere with your samples
- Universal fit. One tip fits all! The tip collar is
- engineered to fit all popular pipettes
- Certified RNase, DNase, DNA and Pyrogen free

Product Applications

DNA applications (e.g. PCR)

RNA applications (e.g. Gene expression analysis)

Protein applications (e.g. Antibody Research)

Cell Culture applications (e.g. Media)

Applications with radio actives

More informations about 200 µl UltraPoint® graduated TipOne® Filter, Natural (sterile)

Nothing goes through!

Protect your samples against unwanted contamination by using TipOne® filter tips. The TipOne® filter is one of the best on the market and protects against aerosol cross-contamination without trapping your valuable samples. The filters contain no additives to interfere with samples.

During pipetting it is not possible to see with the eye if fine aerosols are going into your pipette. If they are, those aerosols can contaminate other samples at a later date.

TipOne® filter tips are proven to block >99% of aerosols and are among the best filters on the market. The results, shown right, speak for themselves!

**The comparative tests were conducted in an independent test institute with filter tips from other leading manufacturers.*
