# More informations about Plate Centrifuge

Starlab's innovative Plate Centrifuge is tailored for the rapid and effortless centrifugation of samples in PCR plates. Use before and after thermal cycling to enhance your yield.

CONVENIENT, TIME SAVING
Now you can stop taking plates to the big centrifuge at the other end of the lab, and having to wait for it to unlock. This plate centrifuge can sit on your bench and will spin your plates in seconds.

FAST LOADING
Holds two standard PCR plates. Load the sealed plates vertically into the top slots.

TWO OPERATING MODES
SHORT: Use for short spins. Press and hold to run at maximum speed. The timer will count up. Release the button to stop centrifuging.

TIMER: For longer centrifugation or hands-free operation, set a duration. Centrifuging will stop when the set time has elapsed.
