## More informations about Pre-Filters for 32" Laminar Flow (Pack of 12)

AirClean® Systems PCR Workstations are designed as application solutions for the manipulation and amplification of RNA and DNA. Cross-contamination during amplification of RNA and DNA can lead to results that are inaccurate — results that cost you your valuable time and consume expensive reagents! AirClean® Systems PCR Workstations offer a controlled environment for PCR applications to improve the odds for getting accurate results.

We offer a wide range of accessoires below:
